

QUALITY POLICY

BOSADO, S.L. is a company whose scope includes: assembling & sales of hydraulic hoses, couplings, fittings and adaptors with DIN, BSP, SAE and JIC threads in carbon steel and stainless steel and design and manufacturing of pneumatic, hydraulic benches and kits, for aerospace sector.

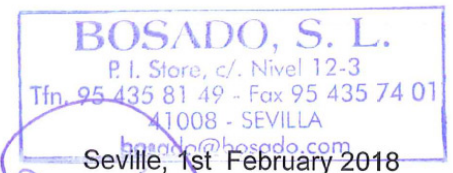

The experience of our technical team in addition to the current financial, technical and human resources of the organization, allow us to execute complex projects with solvency and reliability within the aforementioned sector.

Our Quality Policy is based on: satisfying our customer expectations through professionalism and achieving a high level of efficiency in all our products, complying with legal requirements and other requirements we voluntarily subscribe.

BOSADO, S.L. assumes the following principles:

- This Policy is communicated and understood within the organization and it is reviewed for its adaptation to the context of the organization.
- We are committed to compliance with legal requirements, customer requirements or other requirements that we subscribe and the continuous improvement of the effectiveness of the Quality Management System implemented according to UNE EN ISO 9001:2015 and AS 9100:2016 standards, providing a framework for the establishment and revision of our objectives.
- Our goal is to achieve total customer satisfaction, providing solutions and meeting deadlines.
- We are committed to make sure that our team is trained and motivated to meet the needs of our customers, encouraging suggestions from both clients and workers and providing the ongoing training to continue being a highly qualified technical team.

To achieve this commitment, the collaboration of all the human capital of **BOSADO, S.L.** is necessary.
